

KLove radio station keeps me going every morning on my way anywhere in my car. I can't get it too well at home, but when I do get it traveling, It lifts me up from negative days. It keeps me positively focused and hopeful. We moved here from NYC after the 9/11 and always wished we had more radio stations with such wonderful music, much needed playing in New York City! Lots of our church members and even friends listen to this updated christian music and messages. Thank you for keeping them on! God bless.
